Cr Floyd sought clarification on Item 3.3.1 which was for 19 November 2022 asking why it was only to Council now when the date has passed.

The Director Technical Services advised it was an endorsed event and was considered by Traffic Committee due to the short time frame from application to event. Generally these applications would come earlier to Council for approval.

QUESTION TAKEN ON NOTICE**Cr J Whitton**

Cr Whitton asked for clarification around notices received by residents on Phillip Street at the rear of Bletchington Public School advising they cannot park in front of their houses due to the crossing being updated.

MATTER ARISING**Cr T Greenhalgh**

Cr Greenhalgh requested that a follow up be made regarding investigating the narrow footpath between Canobolas Caravan and Marine and the Motel on Bathurst Road.

3 GENERAL REPORTS

3.1 CURRENT WORKS

TRIM REFERENCE: 2022/2349

RESOLVED - 22/506 **Cr J Whitton/Cr D Mallard**

That the information provided in the report on Current Works be acknowledged.

Cr Peterson asked in regards to the recent rain events and impacts on road maintenance, and whether any resources are needed to assist - particularly with anything on loan to neighbouring Council's.

The Director Technical Services advised staff are busy attending to damage around the area with catch up to do. We were assisting Cabonne Council for a period of time in clean up and getting Eugowra utilities back online with a slight disruption, but still have maintenance crew throughout Orange. With an announcement of the State Pothole Repair Fund, Council has now received closer to \$186k.

Cr Peterson asked if the Chartered flights, with significant passenger numbers involved should be included in number of passengers through airport.

The Director Technical Services advised chartered flights not charged per passenger but by weight of the aircraft coming in/out.

Cr Duffy asked if there was anything we could do to improve roads as they are repaired or extend funding to upgrade and prevent further/similar damage in next weather event.

The Director Technical Services advised staff work closely with Transport for NSW administering the Building Better Regions fund and certainly apply for what we can, noting it will be triaged against significant landslip across networks versus repairing potholes/loss of seal.

Cr Kinghorne asked if there was anything new or research available into what works to make roads more resilient when they are resurfaced after unprecedented water events.

The Director Technical Services advised there are new techniques being trialled as discussed, and Council is also a checkpoint for all new roads where developers are required to test deflection before handing over to Council and putting on a final seal. It all comes down to cost and Council is trialling methods all the time.

Cr Hamling commended staff helping Cabonne Council and Eugowra after recent events and advised the invitation is still open to Cabonne if they require anything from us or if they need help in any way.

The Director Technical Services advised we are still providing engineering support to Cabonne Council on an as needs basis.

THE MEETING CLOSED AT 7.48PM.
