AGAINST: NIL

ABSENT: NIL

RESOLVED - 20/271**CR K DUFFY/CR R KIDD**

THAT THE CONCEPT OF PARKING IN DALTON STREET BE REFERRED BACK TO TRAFFIC COMMITTEE THREE MONTHS AFTER THE BUILDING IS OPEN.

3 GENERAL REPORTS

3.1 CURRENT WORKS

TRIM REFERENCE: 2020/1466

RESOLVED - 20/272**Cr S Nugent/Cr T Mileto**

That the information provided in the report on Current Works be acknowledged and a report be brought back to Council on the potential for the use of Lake Canobolas as a water source for Orange.

For: Cr Kidd, Cr Duffy, Cr Hamling, Cr McRae, Cr Mileto, Cr Munro, Cr Nugent, Cr Romano, Cr Taylor, Cr Turner, Cr Whitton

Against: Nil

Absent: Nil

Cr Nugent stated it was great to see our water supply over 50% and asked what the purpose of smart meters is, what the current triggers for the Macquarie river are for environmental flows and whether the oil spill in Moulder Park had been cleaned up.

The Director of Technical Services stated that booms have been installed as well as a granular flocculent to absorb the spill and an initial clean-up has been completed however we are still investigating the source. At the 40% combined storage environmental flows went back to normal with up to 1megalitre released each day of inflow and maintaining 1.75megalitres flow at the third crossing. At 6pm today there was 16megalitre/day flowing at the third crossing. The Macquarie River trigger at 50% combined storage reverts to 108megalitres/day from 38. At 6pm today 2644megalitres/day was flowing at Long Point. Smart meters are being installed in large commercial and residential users. Similar to energy tracking meters for usage, customers can log in and see in real time their water usage to identify leaks and assist in demand management. Council will not be monitoring closely however will have a base line to track large users and we may set up automatic checks for significant fluctuations in use that could be due to leaks within the private plumbing system.

THE MEETING CLOSED AT 8.03PM.
