2 KEY BUSINESS PRINCIPLES

Commitment to (Local) Business

- 2.1 Council recognises the importance of their local (small) business sector as a vital community and economy contributor.
- 2.2 Council values local (small) businesses as an important stakeholder in community consultation and will undertake regular and targeted consultation with the small business sector.
- 2.3 Council acknowledges that a 'one-size-fits-all' approach will not meet the needs of a all small businesses.

All policies can be reviewed or revoked by a resolution of Council, at any time.

- 2.4 Council actively engages where appropriate with State-based businesses on matters affecting the local economy
- 2.5 Council strives to ensure that strategic and day-to-day decision making is based on the consideration of the needs and potential impacts of all stakeholders including small businesses.
- 2.6 Council supports education, networking and other development opportunities for the local business community.
- 2.12 Impartiality means the purchasing process must be undertaken in a fair, objective consistent and business-like manner leading to improve performance and cost effective business processes and procedures for Council. Council strives to be impartial by ensuring its processes are appropriate.
- 2.13 Tenders will not be called unless Council has a firm intention to proceed to contract. All potential suppliers will be treated with impartiality and fairness and given equal access to information and opportunities to submit bids. All procurement activities will be clearly documented to allow for effective performance review.

Value for Money

- 2.7 The principle of best value for money is central to Council's business relationship with private sector suppliers of goods and services. Decisions based on price alone are not necessarily representative of best value for money.
- 2.8 Best value requires an assessment of whole of life cycle costs including factors such as initial cost, quality suitability, reliability, ongoing costs, legal compliance, timelessness, environmental sustainability in order to determine the true value for money.
- 2.9 An important element in obtaining the best value of money also includes ensuring Council's business dealings are impartial, honest, ethical, fair and consistent.

Transparency

- 2.10 Transparency means visible and verifiable confirmation of the integrity of the purchasing process and compliance with the relevant legislation and adopted Council procedures.
- 2.11 Council's business decision will be transparent with decisions based upon merit and in accordance with Council's policies and procedures. Under the Government Information (Public Access) Act, there is a presumption to provide access to government information unless there is an overriding public interest against disclosure.

Openness and Accountability

- 2.14 Council is committed to the purchase of goods, equipment and services in accordance with Council's Purchasing policies and legislation and be able to account for all decisions and provide feedback on these decisions.
- 2.15 Where all other factors are equal, Council may give preference to Australian made products and/or goods and services from local businesses.
